- ▶ Hands on training
- ▶ Professional tutors

Building a career in Telecoms

- ▶ BTEC Qualification
- ▶ Pearson Accreditation
- ▶ Genuine pathways to employment
- ▶ 81% of our learners find employment when they complete their course

Our unique approach

Our curriculum for Telecommunications Engineering is a little different to other funded training courses available in the UK. We take a practical approach to learning.

We've invested in our training centres to provide each learner with a practice electrical cabinet, complete with fibre optics components to conduct practical exercises alongside the theory.

Our curriculum splits around 60% theory, 40% practical and we encourage learners to complete their theory work with time to spare and try out what they learned in their practice cabinets.

Our Ofsted Ratings:

The quality of education:	Good
Behaviour and attitudes:	Outstanding
Personal development:	Good
Leadership and management:	Good
Adult learning programmes:	Good
