CREATIVE SKILLS

DIGITAL BYTESIZE

L1 Certificate in Skills for Creative Industries
L2 Award in Digital and IT Skills
L2 Award in Website design and development

Become a master of design with our fully funded Creative Skills course

As part of our Digital Bytesize course, the Creative Skills pathway will provide you with an introduction to the Digital sector, with a particular focus on website creation and games development.
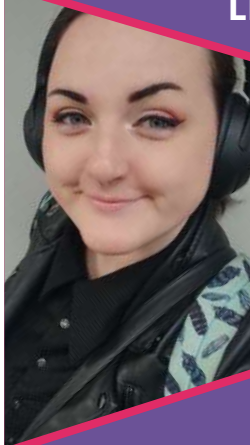

During this accredited online course, you'll gain relevant and valuable digital skills, as well as knowledge and an insight into design and gaming development. We'll also support you into relevant progression routes such as apprenticeships, bootcamps and employment after you've completed the course.

The course will be delivered in a virtual classroom, so you will need access to a laptop/computer with an internet connection to complete the course.

You will also complete employability modules designed to help you market yourself for your future career.

LEARNER FEEDBACK

"I feel the Digital Bytesize course has definitely given me more confidence in the areas I was taught. It's also helped me to solidify what I would like to work in going ahead, and I'm very grateful for that! "

Kate Jones

"It was rewarding completing each module. I never would have thought I could have done these courses a year ago. They give you hope that someone will see your potential. You're never too old to learn something new."

Paul Doodson
