

# CYBERSECURITY BOOTCAMP

## 5 Week Programme: Your Digital Future

Enroll in our 5 week Cybersecurity Bootcamp to develop vital skills in safeguarding data and securing networks. Whether you're focused on protecting your digital identity or keen to explore the intricacies of cybersecurity, this all-encompassing programme is tailored to your needs. Upon completion, there is a potential opportunity to gain a work placement and an interview for a career in the industry!

### What You Will Learn:

- Understand cybersecurity basics and protect your digital identity.
- Explore networking foundations and core network device configuration.
- Assess networks, operating systems, and endpoint devices for vulnerabilities.
- Develop comprehensive cybersecurity strategies using monitoring and defence tools.
- Gain advanced knowledge in governance, threat management, and policy development.
- Ensure organisational compliance with ethical, legal, and regulatory standards.

**Eligibility Criteria:**  
Unemployed  
19+
