

Grow Programme

Frequently Asked Questions (FAQs)

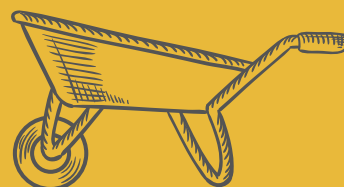

What do we do?

- ✍ The Grow Programme develops employability skills, builds social connections and promotes wellbeing.
- ✍ All our work is hands-on and outdoors every week, so please ensure any young person you refer is comfortable in all weather conditions.
- ✍ The young person will also have a weekly 1-to-1 to help them identify barriers to work or education and coach them to reach their specific goals.
- ✍ Once they have completed the four week Grow Programme they have the opportunity to interview for our (paid) Grow Gardeners programme.

“Does the young person get paid?”

After the 4-week Grow Programme, the young person can interview for a 10-week Grow Gardeners placement, earning £12.60 per hour (Real Living Wage) if successful.

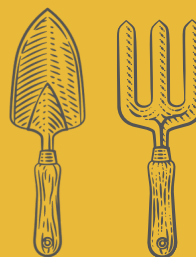

“What about the weather?”

We work outside in all weathers and have a polytunnel for shelter.

“What about travel costs?”

If travel costs are a barrier for a young person, we ask referrers to assist. If that's not possible, please get in touch.
