

# SUPPORTED INTERNSHIPS IN SHEFFIELD

A **supported Internship** is a study programme designed for a young person who needs some extra help to move into work. It lasts for **1-year** and is for young people aged **16-24** with an **Education, Health and Care Plan (EHCP)**.

Young people spend most of the year on placement and are supported by a **Job Coach**. The programme is **unpaid**- and the aim is that each young person will achieve **paid employment** by the end of the programme. **EHCPs do not automatically cease** at the end of a supported internship - only when a young person has left education for employment, where the EHCP is no longer needed. Supported Internships do not impact on benefits.

In **Sheffield**, we have **four providers** of supported internships. More information on their programmes is below. To find out more - or to refer a young person to them, please use the email address provided.

## Sheaf Training

**Ellie Cook**

[ellie.cook@sheffield.gov.uk](mailto:ellie.cook@sheffield.gov.uk)

Sheaf Training offer a bespoke supported internship, tailoring work placements to the aspirations of the young person. Previous placements have taken place across different roles in the local authority and within the catering sector.
