## Pathways to Work triage

Opportunity Sheffield is the local System Service Manager for Pathways to Work, a South Yorkshire-wide initiative to integrate employment, skills and health provision and create a simpler system for referrers, providers, employers and residents.

The Pathways to Work system includes a wide range of employment, skills and health projects, which are designed to support local residents and help them to achieve their potential.

Our priority is ensuring the most appropriate referral for every person with an employment or skills need.
